Thank You.

A big thanks goes out to the San-Lee un Club for once again supporting the people who receive services at LCI! They have donated funds to allow our program participants to enjoy a Thanksgiving and Christmas feast here at our facility. It's a great way for everyone to enjoy the holidays together!

Progress Report on the CAP-I/DD Medicaid Waiver Plans.

Many families and professionals are already aware of the proposed upcoming changes to the NC Community Alternatives Program Intellectual/Developmental Disability Medicaid waiver plan, known as CAP-I/DD. The General Assembly passed legislation to make the Medicaid managed care waiver service model, known as the 1915 b/c Waiver Program, become the statewide waiver program. *This decision has sparked much concern and debate.*

Below is a link from the state agency that will be responsible for the changes to CAP-I/DD.

[The 1915\(b\)\(c\) Waiver Expansion for People with Intellectual and other Developmental Disabilities](#)

Added Value.

LCI has recently been afforded an opportunity with grant funds to purchase equipment to make our Industry Services operations run more smoothly. With the grant, we have acquired:

- 8 additional work stations built well for kitting purposes, dual level with a gravity feed tray on the top level to speed assembly
- Anti-fatigue mats for worker comfort
- New fork lift
- Pallet jack
- Hand trucks
- Pallet scale
- Automatic tape dispenser to speed production of boxes
- New loading dock door for added security of customer product

Sincerely,

Meg Moss
