## LEE COUNTY INDUSTRIES IN THE COMMUNITY AND WORKPLACE

Organizations who are familiar with the core principals of LCI have found it preferable to outsource their work to our organization. Some of the key benefits include:

- Support of a non-profit organization that specializes in building the community.
- Partnering with a credible organization with proven results and longevity.
- Keeping employment local to improve the economy.

During the months of January and February, LCI processed over 175,000 units of product, 30 pallet re-pairs, and 14,000 pounds of plastic for recycle.

*Welcome to Lee County Industries Inc.: Bringing People and Purpose Together.*

*Lee County Industries (LCI) is a community non-profit organization that specializes in education, and rehabilitation of persons with disabilities. Established in 1967 as a workshop for the disabled, LCI has emerged as an Industry leader for equipping people and families with the tools necessary to improve quality of life for people with disabilities.*

## What Can LCI do to Help Your Industry Grow?

LCI eases the strenuous task of finding reliable and highly trained employees. At LCI, we provide the training necessary for employees to perform job functions so that your organization can grow. Companies can cut overhead costs tremendously of the hiring process by eliminating skill assessment tests, safety and government compliance, and pre-qualifying processes.

Lee County Industries provides manufacturing support services in the forms of:

## DIVERSITY: A BALANCED WAY OF LIFE

LCI embraces diversity as an equal opportunity employer. We understand that the human experience is a shared experience that affects all walks of life. We value our community, and we embrace humanity understanding that everyone is unique in their own way.

In tribute to Black History Month, LCI attended the annual Lee County Martin Luther King Jr. Celebration. In attendance was Shirley Rijkse; LCI Director of Careers and Special Projects, and Natasha Rawls; LCI Document Conversion Manager. LCI spoke with over 100 members of the community about employment training, rehabilitation services and volunteer opportunities. The amount of positive feedback from community members in attendance was staggering! As Lee County Industries continue to expand its services to adjacent counties, we are even more confident that our stellar reputation will continue to inspire hope for future generations to come.

## Lee County Industries: A Family Affair

A family is often defined as “two or more people who share goals and values, have long-term commitments to one another, and reside usually in the same dwelling place”. Although the LCI family does not dwell within the same households, our hearts and minds are always unified under the same purpose. The heart is the true dwelling place. Lee County Industries is a shining example of the definition of family. Our commitment to our clients and community is displayed by our actions not just words. At Lee County Industries our clients will always be the most important affair.

## LEE COUNTY INDUSTRIES ENTERS DOCUMENT CONVERSION BUSINESS

As part of its strategic planning, LCI has spent the past 2 years preparing for the launch of document conversion services to better serve our local businesses. This process is one stepping stone towards our long term goals of providing employment opportunities for people with disabilities.

With assistance from the Golden LEAF Foundation, LCI has updated its facility security, purchased production scanners, and partnered with a major document Management Corporation in order to efficiently and securely scan records for a variety of industries. Some of these industries include medical, educational and social services.
